NORTH® PRIMAIR® HOODS

For use with North Compact Air 200 Series and North CF1000 CF-SAR. Our North Primair hood selection features a variety of head cover styles to accommodate a variety of work site requirements and user preferences.

- Headgear holds hoods securely to follow worker movement, improving overall visibility and eliminating interference of hood when turning head from side to side.
- Manifold directs air over the lens where it is needed most, and away from worker's eyes so as not to cause dryness of the eyes. Diverted air-flow helps to reduce lens fogging and keeps workers cooler for greater comfort.
- Bibbed hood features dual snaps for adjustable bib length to provide adaptability to different applications and worker height.
- Coated hoods available for protection from occasional splash.
- Full hoods have an APF of 1000 for maximum protection from contaminants.

PRIMAIR™ 100 SERIES

Standard headgear. Available with loose fitting facepiece, hood with bib and hood with nylon collar.
