Description

Zorb-IT® unique sponge-nitrile technology is changing the rules of what a flat-dip nitrile glove can be. Zorb-IT's sponge nitrile produces a Maximum Oil Absorbency (MXOA) nitrile dip that conforms and adheres to the nylon shell like no other glove available. The result is a glove that beats the competition in laundering nearly three-to-one, and absorbs almost twice as much oil and grease while still delivering a sure grip. What's more, Zorb-IT doesn't delaminate after only a few washes, standing up to repeated washings with no shrinkage. Zorb-IT's revolutionary design is what you've come to expect from the worldwide leader in hand protection technology.
